

KIM JOHN TUÑACAO

Technical Virtual Assistant | Manual QA | AI-Assisted Workflows

Philippines | tuncaokimjohn@gmail.com | [Portfolio](#) | [GitHub](#)

PROFESSIONAL PROFILE

Technical professional with international maritime engineering experience, now delivering practical personal software projects and building skills in remote support, quality assurance and AI-assisted workflows. Brings structured troubleshooting, documentation habits and careful human review of AI outputs.

TECHNICAL & PROFESSIONAL SKILLS

Remote operations

Online research, documentation, structured trackers, Google Docs/Sheets, task organization.

QA and technical support

Manual test cases, bug reproduction, UI review, Linux fundamentals, basic networking, troubleshooting.

AI & frontend

ChatGPT, Claude Code/Codex assisted workflows, HTML/CSS, JavaScript fundamentals, responsive checks.

SELECTED PROJECTS

SchoolPulse | School management pilot

Defined school workflows and coordinated AI-assisted build reviews for role-based demo interfaces; documented testing and release readiness.

SofiCanteen | Inventory PWA

Worked on canteen inventory, stock counts, receipts and reports in a responsive application with an initial setup demo.

SmartHouse Budget | Household finance PWA

Developed and reviewed payday planning, bills, grocery lists and household finance interface workflows.

Project NERO | Private AI prototype

Designed agent-role concepts, approval checkpoints and a structured development/validation process.

PROFESSIONAL EXPERIENCE

Motorman / Marine Engineering Operations | 2022–2026, multiple vessels

- Performed routine machinery watchkeeping, monitoring, preventive maintenance and operational troubleshooting in international maritime environments.
- Followed safety procedures, documented technical work and coordinated with engineering teams under time-sensitive conditions.

Engine Cadet | 2018–2019

- Supported engine-room operations and machinery inspection under supervision.

CISCO NETWORKING ACADEMY | COMPLETED COURSES

Networking Basics (13 Jul 2026) • Introduction to Cybersecurity (23 May 2026) • Getting Started with Cisco Packet Tracer (25 May 2026)

ADDITIONAL LEARNING

Continuing study in Linux, networking and cybersecurity.

EDUCATION

Marine Engineering studies, Technological Institute of the Philippines, Manila (2014–2017).

High School Diploma, La Concepcion College, Bulacan (2014).
